## **Press Release**

"Everything in this life is **EASY**" says Dr. Richard London, creator of a visionary new life path he calls the **Wellnessaire Life Program**. "This life path will rapidly lead its participants to wealth and wellness in every area of their life" says Dr. London.

"For the past several decades, the ambitious among us have strived to become millionaires, then billionaires," he stated recently. "However, the world's economic, health and cultural arenas have changed, and changed so radically, that our ability to achieve our goals of wealth and health today totally eludes us. We have no model for creating the life we deserve."

"As we look around us today, we see that our fortunes have eroded at a rapid rate, from those in the "middle class" to the wealthiest among us," Dr. London notes.

"What worked for our parents and grand parents isn't working for us," he concludes, "and we don't even know why. But one thing is certain; the old models do not work for us today!"

Dr. London's Wellnessaire Life Program answers the following questions for individuals regarding their professional business/personal life:

- How do I create wealth for myself in the world today?
- How do I create perfect health for myself today?
- What are the blocks that prevent me from creating wealth in my life today? How do I eliminate them?
- What are the blocks that prevent me from creating wellness in my life today? How do I eliminate them?
- How do I build a successful team of Wealth generating professionals in my business/company?
- In short, how do I become a Wellnessaire?

To find out how to make everything in your personal or business life EASY, you can schedule a free 15 minute session with Dr. London by sending an email to him at <a href="mailto:doctorateoflife@gmail.com">doctorateoflife@gmail.com</a> and requesting your free session with him.
